

## March *LifeSolutions* Corner 2009

*"I feel out of control with my finances and just don't want to deal with them. Can LifeSolutions help?"*

You are not alone and yes we can help. There may be several factors that contribute to feeling out of control of your finances. Do any of these fit your situation?

- ◆ I'm so deep in credit card debt that I don't know if I can ever get out.
- ◆ My house is in foreclosure. I don't have any relatives nearby, I have young children, and I don't know where we're going to live.
- ◆ My utilities have gone through the roof, and now my paycheck doesn't cover my expenses.
- ◆ How do I set up a budget? I've never had one in the past, but I think I need one now.
- ◆ My retirement money is disappearing as the stock market tanks. What do I do?
- ◆ My spouse just died unexpectedly. I haven't had to pay the bills or manage our finances in the past. I just don't know where to start.
- ◆ Our adult daughter and her son live with us. She has a drug problem and has been in treatment several times, but she can't seem to stay clean and hold onto a job. We love her and our grandson, and we don't want them to be homeless, but we really can't afford to keep supporting them. What can we do?

Whatever your concern is, consider contacting us at 1-800-647-3327.
